Experience

ValueMomentum   Oct 2024 – Present
Software Engineer

      ***Skill acquired**- WebService's- REST API & SOAP API, XSLT/GatewayScript, SoapUI/Postman, Docker*

- Worked on IBM integration tools, including **DataPower**, **API Connect** (APIC), and **Integration Bus** (IIB).
- Assisted in basic configuration and completed tasks related integration workflows.

Skills

- JAVA
- Spring/Spring Boot
- Hibernate, JDBC
- Selenium WebDriver
- HTML5, CSS3, JavaScript
- SQL, NoSQL
- React.js
- C Programming
- RWD – JQuery, Bootstrap
- Figma/ Photoshop
- Git & GitHub
- REST APIs
- Docker
- Python
- C #

Projects

Paw Petopia 🔗   July 2024

- Build a platform where users can browse and adopt pet.
- Detailed profiles for each pet, including photos, descriptions, and care instructions.
- Search and filter options to find pets based on specific criteria (e.g., species, age, care needs).
- Chat: Users can chat with pet owners to ask questions and learn more about pet through chat audio/video call allowing user to interact with pets and its owner in real time.

    Techstack: Spring Boot, Hibernate, React JS, TailwindCSS, MySQL, Postman, Web Socket, Web RTC, Cloudinary.

What To Cook – The recipe finder 🔗   Dec-2023

  Recipe Suggestion Website

- Build a user-friendly sign-up feature enabling users to create personalized accounts to save and manage their favorite recipes.
- Designed and integrated a database system allowing users to securely store and retrieve their saved favorite recipes with ease.
- Search functionalities to facilitate quick access and retrieval of saved favorites.

    Techstack: HTML, CSS, Bootstrap, Firebase, Javascript, JQuery.

Personal Voice-Activated Virtual Assistant 🔗   Aug 2024

- Developed a Personal virtual assistant using Python's pyttsx3 (text-to-speech) and speech recognition (voice input).
- Integrated unique tasks: live news updates weather reports WhatsApp Messaging , alongside standard commands like opening YouTube.
- Enabled persistent task mode for multiple commands without repeated wake words, enhancing user experience
- Optimized performance and reliability by implementing error handling and fallback mechanisms, ensuring smooth operation even in noisy environments or with inconsistent network connections.

    Techstack: Python, modules:- feedparser, requests-OpenWeatherMap, pywhatkit, webbrowser

Certification

- JAVA Full Stack Developer – Spring Boot + ReactJS
- Generative AI for Beginners

Education

B. Tech in Computer Science & Engineering Department
Maharashtra Institute of Technology Chh. Sambhajinagar   **2021- 2024**
Aggregate CGPA: 8.36

BHASKARACHARYA JR. COLLEGE, Aurangabad, Maharashtra – HSC   **2019-2021**
Ryan International School, Aurangabad, Maharashtra – SSC   **2013-2019**
